

Tomorrow Will Be Yesterday-The Story of BASH

The story is about a fictional Los Angeles rock and roll band from the 1970s called BASH. (The name was derived from the initials of the four members, Danny Blanchard, Johnny Axe, Eddie Steele and Hap Henderson.) The story evolves around the attempt to locate and reassemble the four who have not seen each other since the break up in 1979. What makes the band an anomaly is the fact that when they were together, they were basically just a footnote to everything in the music industry because no one ever really heard of them. They received very little publicity and never received any real attention. And so, frustrated, they simply put the band out of its misery. However, what they didn't count on was having an actual fan that eventually wound up being a movie director in Hollywood. She decided on a whim to put one of their songs into the soundtrack of a major studio motion picture she was making in 1984. As a result, suddenly people who had never heard of the band were attracted to them by the song. This led radio stations starting to play the song and a growing interest in their albums and their music. Eventually from out of nowhere they found themselves with two platinum albums and several top ten singles. However, by that time, they all had different lives and really no interest in reforming for various reasons, and so no one even thought about a reunion. But now, the interest has long since waned, and the members are really far out of the spotlight in general. One of them, however, gets the bright idea to have a reunion, which starts the ball rolling. Meanwhile, up in San Francisco, the long-since retired and reclusive Eddie Steele, who has changed his name back to his birth name Ed Simmons, is quietly teaching school quite contently. No one even knows that he was part of the band, which is the way he prefers it. However, into every life that seems quite comfortable and contented

comes the ultimate wild card - love. A co-worker has a friend that she thinks will be just the perfect woman for the confirmed bachelor. Though he doubted it would amount to anything, he agrees to meet her and from that initial evening begins a romance for the ages... Of course, no romance is without surprising complications and that is when the fun really begins! With more twists and turns than a Chubby Checker concert, it is a must read for lovers of rock music as well as those who enjoy a beautiful romance. Perfect A must read! Five Stars!!!!-Michelle Humphrey, Examiner.comThe foibles and passions of rock bands make for lively fiction, and the group that comes to life in Michael Robert Krikorians first novel is decidedly no exception... Making fiction sound like fact gives Tomorrow Will Be Yesterday: The Story of BASH, with its fully developed and nuanced characters, a ring of authenticity. Elizabeth Millard, Foreward Clarion Reviews
