

Leptosporangiate (Tellings From the City State (Prologue))

The city of Kragmor Canyon is located in a desert far to the west. The people who live there are bored, cold, hungry, and sore, but that won't stop them from taking it back. Nothing will. In this new series from the mind that brought you *The Meta-Comedy* and *The Brown Ranger* comes an historical look at the world's most improbable city-state. Prologue: Tungsten and Bill are homeless, as is nearly everyone in the crowded, incestuous, mutant city of Kragmor. Here we see them take part in the city's most beloved pastimes: loitering, stealing, and the occasional musical number. But when a corporate scheme to take back the Americas is hatched, Bill and Tungsten see an opportunity for a meal and perhaps even a set of warm clothes. Originally published as a stand alone chapter in *The Meta-Comedy*, this story serves as an entry point for those who never read that fine work of affordable word-smithy:
