

Hidato - 250 Easy to Medium Puzzles 5x5 (Volume 1)

Hidato (from Hebrew: my puzzle; also known as Hidoku) is a puzzle invented by Gyora Benedek, an Israeli mathematician. The goal of Hidato is to fill the grid with consecutive numbers that connect horizontally, vertically, or diagonally. In every Hidato puzzle the smallest and the highest number are presented in the grid. There are more numbers on the board to help to direct the player how to start the solution and to ensure that Hidato has only a single solution.
